TOPIC-WISE STUDY INDEX — DM PAPER IV

Use this map to revise by disease rather than by year. File names live in **pdfs/by_question/**. Prioritise FOCUS 2022–2026 essays (deepened) first, then shorts, then older repeats. Every answer embeds **NCCN 2026/2027** update boxes.

Suggested 10-day revision order

- Day 1–2: Breast HER2/TNBC + ADCs (incl. deep essays Q361, Q373, Q385)
- Day 3: Lung early + EGFR metastatic sequencing (Q362 + osimertinib shorts)
- Day 4: CRC/MMR/ATOMIC + gastric FLOT pathways (Q349)
- Day 5: AML/ELN2022 + CML TKI/TFR (Q350)
- Day 6: Myeloma bispecifics/CAR-T + lymphoma CPI
- Day 7: RCC IO+VEGF (Q338) + prostate/bladder
- Day 8: Melanoma mucosal (Q374) + immunotherapy toxicities
- Day 9: Supportive care (Q326) + HIV lymphomas (Q337) + transplant
- Day 10: RWE/digital (Q386) + microarray (Q325) + NCCN cheat sheet memorisation

Breast / HER2 / TNBC / endocrine (26)

Essays

Q035 [15m · August 2004]
Discuss critically the role of neoadjuvant chemotherapy in the management of locally advanced breast cancer.
Q079 [15m · February 2007]
Critically evaluate breast conservative surgery versus radical surgery in the management of breast cancer.
Q181 [15m · August 2014]
Recent advances in treatment of HER2 Positive Breast cancer.
Q193 [15m · August 2015]
Unique biology of Triple negative breast cancer and targeted agents in the treatment of advanced triple negative breast cancer.
Q206 [15m · February 2016]
Discuss the role of chemotherapy in early breast cancer.
Q242 [15m · August 2017]
Management of axilla – Role of axillary Lymph Node Dissection vs Sentinel Lymph Node Biopsy.
Q254 [15m · February 2018]
Molecular subtypes of Breast cancer and management of endocrine resistant breast cancer.
Q314 [15m · August 2021]
Discuss the recent advances in management of HER2/neu positive breast cancer.
Q361 [15m · January 2024] · DEEP
Methods of HER2 testing and interpretation, therapeutic strategies for HER2+ve Metastatic Breast Cancer.

Short notes (selected listing)

Q032 [5m · April 2004] Hormone therapy for metastatic breast cancer
Q060 [5m · February 2006] Hormonal treatment of breast cancer in premenopausal female
Q091 [5m · August 2007] Microarrays in breast cancer
Q166 [7m · August 2012] Clinical Indications and Toxicity of Trastuzumab
Q187 [7m · August 2014] Role of Androgen receptor in breast cancer management
Q202 [7m · August 2015] EMILIA trial
Q220 [7m · August 2016] Role of Medical Oncologist in the management of operable early Breast cancer
Q233 [7m · February 2017] PI3 kinase and mTOR pathway in breast cancer
Q243 [7m · August 2017] Neoadjuvant HER2 targeted therapy in breast cancer
Q246 [7m · August 2017] Preservation of fertility during chemotherapy for breast cancer
Q257 [7m · February 2018] Accelerated partial breast irradiation
Q276 [7m · August 2018] Pertuzumab
Q305 [7m · November 2020] Pregnancy associated breast cancer
Q327 [7m · February 2022] Diet and breast cancer
Q369 [7m · January 2024] Clinicopathologic features of breast cancer with intrinsic subtypes
Q371 [7m · January 2024] Alpelisib
Q387 [7m · January 2026] Sacituzumab govitecan

Lung / EGFR / ALK / NSCLC / SCLC (13)

Essays

Q362 [15m · January 2024] · DEEP
Practice changing advances in early stage NSCLC.

Short notes (selected listing)

Q021 [10m · March 2002] Multiagent antifolate in non-small cell lung cancer
Q102 [6m · February 2008] Transfusion related acute lung injury (TRALI)
Q163 [7m · August 2012] Recent advances in Systemic therapy in Non Small Cell Lung Cancer
Q248 [7m · August 2017] Maintenance Therapy in Lung cancer
Q262 [7m · February 2018] Molecular diagnostic studies in lung cancer
Q270 [7m · August 2018] Immunotherapy in lung cancers
Q280 [7m · August 2019] ALK positive lung cancer
Q316 [7m · August 2021] Sequencing of treatment in epidermal growth factor receptor (EGFR) positive metastatic lung cancer
Q319 [7m · August 2021] Lung cancer screening
Q343 [7m · August 2022] Capmatinib – its target and evidence to use
Q363 [7m · January 2024] Multifocal ground glass and Lepidic adenocarcinoma of lung
Q382 [7m · February 2025] Osimertinib

Colorectal / rectal / MMR / MSI (15)

Essays

Q098 [20m · February 2008]
Discuss the status of geriatric assessment in the elderly and briefly elaborate on the treatment of older subjects with colorectal cancer.
Q109 [20m · August 2008]
Discuss the pathophysiology of hemopoiesis and the current status of colony stimulating factors in the management of infectious complications in subjects with febrile neutropenia following myelosuppressive chemotherapy.
Q122 [20m · February 2009]
‘Cancer is a multistep process’ – Explain with the example of colon cancer. What could be possible interventions at each step?
Q157 [15m · August 2012]
Discuss in detail the role of Targeted therapy and recent advances in the Systemic Management of Colorectal Cancers.
Q278 [15m · August 2019]
Management of locally advanced rectal cancer.
Q349 [15m · February 2023] · DEEP
Discuss the role of genes involved in mismatch repair (MMR) mechanisms in various cancers. Discuss testing modalities of MMR genes and their interpretation. Describe the mechanism of MMR as a biomarker for checkpoint inhibitors.

Short notes (selected listing)

Q185 [7m · August 2014] Ramucirumab in colorectal cancer
Q189 [7m · August 2014] Surgery vs Observation following Neoadjuvant chemoradiation in locally advanced rectal cancer
Q207 [7m · February 2016] Targeted therapy in colon cancer
Q209 [7m · February 2016] Chemoradiotherapy in rectal cancer
Q288 [7m · August 2019] Recent advances in management of metastatic colon cancer
Q300 [7m · February 2020] Chemotherapy in stage II colon cancer
Q335 [7m · February 2022] Molecular biology of colon cancer
Q365 [7m · January 2024] Screening for colorectal cancer
Q395 [7m · January 2026] ctDNA monitoring in colorectal cancer

Gastric / esophageal / HIPEC GI (7)

Essays

Q194 [15m · August 2015]
Perioperative and Neoadjuvant chemotherapy in Gastric cancer.
Q218 [15m · August 2016]
Describe the etiology and molecular profile in the development of gastric cancer and role of targeted therapy.

Short notes (selected listing)

Q045 [5m · August 2004] Role of adjuvant chemotherapy for gastric cancer
Q066 [5m · February 2006] Treatment of gastric lymphoma
Q311 [7m · November 2020] Chemotherapy in gastric cancer
Q321 [7m · August 2021] Role of hyperthermic intraperitoneal chemotherapy (HIPEC) in ovarian cancer
Q376 [7m · February 2025] HIPEC

CML / TKI / TFR (6)

Essays

Q134 [20m · August 2009]
Management of imatinib-resistant chronic myeloid leukemia.
Q241 [15m · August 2017]
Pathogenesis, Diagnosis and management of CML and Newer drugs in the treatment of CML.

Short notes (selected listing)

Q065 [5m · February 2006] Imatinib mesylate
Q210 [7m · February 2016] Stopping TKI in CML
Q279 [7m · August 2019] Stopping TKI in CML
Q304 [7m · November 2020] Advantages and disadvantages of second and third generation tyrosine kinase inhibitors over imatinib in newly diagnosed chronic myeloid leukemia

AML / APML / MDS / myeloid (18)

Essays

Q009 [25m · November 2001]
Discuss management of standard prognosis AML.
Q034 [15m · August 2004]
Describe critically the management of a 30-year-old male recently diagnosed with chronic phase chronic myeloid leukemia.
Q134 [20m · August 2009]
Management of imatinib-resistant chronic myeloid leukemia.
Q182 [15m · August 2014]
Discuss in detail about cytogenetics, molecular abnormalities, prognostic factors and newer therapies in Acute Myeloid Leukemia.
Q230 [15m · February 2017]
Discuss the recent advances in management of chronic myeloid leukemia.
Q350 [15m · February 2023] · DEEP
WHO 2022 classification of Myeloid malignancies and describe in detail diagnostic investigations, molecular testing, ELN 2022 risk stratification and management of Acute Myeloid Leukemia (AML).

Short notes (selected listing)

Q039 [5m · August 2004] Large cell anaplastic lymphoma
Q162 [7m · August 2012] Definition and Indications of Haploidentical Stem cell Transplantation
Q199 [7m · August 2015] Myeloid sarcoma and its management
Q211 [7m · February 2016] Advances in treatment of anaplastic large cell lymphoma
Q227 [7m · August 2016] Targeted therapy of FLT3 positive acute myeloid leukemia
Q283 [7m · August 2019] Therapy induced AML
Q304 [7m · November 2020] Advantages and disadvantages of second and third generation tyrosine kinase inhibitors over imatinib in newly diagnosed chronic myeloid leukemia
Q308 [7m · November 2020] Venetoclax
Q309 [7m · November 2020] Management of acute promyelocytic Leukemia (APML)
Q358 [7m · February 2023] Various modalities of T cell depletion in Haploidentical transplantation
Q378 [7m · February 2025] Venetoclax
Q392 [7m · January 2026] Targeted therapies for hematologic malignancies—BTK inhibitors, FLT3 inhibitors

CLL / BTK / lymphoma / Hodgkin (25)

Essays

Q058 [15m · February 2006]
Describe critically the management of Hodgkin’s disease which relapsed after standard ABVD.
Q217 [15m · August 2016]
Describe the role of PET scan in early stage Hodgkin lymphoma and optimal management.
Q337 [15m · August 2022] · DEEP
Discuss the role of HIV in the pathogenesis of Cancer. Discuss the cancers associated with HIV infection. Discuss in detail the management of various lymphomas arising in a patient with HIV-AIDS.

Short notes (selected listing)

Q014 [10m · November 2001] Antibody targeted therapy in non-Hodgkin’s lymphoma
Q026 [5m · April 2004] Role of monoclonal antibodies in lymphomas
Q039 [5m · August 2004] Large cell anaplastic lymphoma
Q042 [5m · August 2004] Rituximab
Q066 [5m · February 2006] Treatment of gastric lymphoma
Q125 [6m · February 2009] T-cell non-Hodgkin’s lymphoma
Q168 [7m · August 2012] Current role of PET Scan in patients with Lymphomas
Q184 [7m · August 2014] Targeted therapy in Hodgkin’s Lymphoma
Q196 [7m · August 2015] Second malignancies after treatment of Hodgkin lymphoma
Q211 [7m · February 2016] Advances in treatment of anaplastic large cell lymphoma

Q221 [7m · August 2016] Late Sequelae of Radiotherapy in Hodgkin's lymphoma
Q232 [7m · February 2017] Maintenance rituximab in lymphoma
Q239 [7m · February 2017] Recent advances in management of primary CNS lymphoma
Q244 [7m · August 2017] Early intensification treatment approach in advanced Hodgkin Lymphoma
Q260 [7m · February 2018] Escalated BEACOPP
Q286 [7m · August 2019] Revised staging and response assessment in lymphoma
Q292 [7m · February 2020] Brentuximab
Q318 [7m · August 2021] Management of nodular lymphocyte predominant Hodgkin lymphoma (NLPHL)
Q339 [7m · August 2022] Blinatumomab – class of drug and various uses
Q351 [7m · February 2023] BiTE (Bi-specific T-cell engager) – describe and discuss the drugs
Q355 [7m · February 2023] Brentuximab vedotin
Q377 [7m · February 2025] Immune checkpoint inhibitors in Hodgkin's lymphoma management

Myeloma / CAR-T / BiTE / cellular (12)

Essays

Q081 [15m · February 2007]
Discuss the plasma cell–stromal interactions in multiple myeloma and various therapeutic strategies in the treatment of myeloma.
Q145 [15m · August 2011]
Discuss in detail Adoptive cell therapy in treatment of Cancer.
Q265 [15m · August 2018]
Discuss the Diagnostic criteria of Multiple myeloma and Recent developments in the management of Refractory multiple myeloma.
Q277 [15m · August 2019]
Discuss CAR-T cells and its therapeutic implications.

Short notes (selected listing)

Q115 [6m · August 2008] Graft versus myeloma effect
Q240 [7m · February 2017] Newer drugs in myeloma
Q247 [7m · August 2017] Autologous Bone Marrow Transplant in Multiple Myeloma
Q317 [7m · August 2021] Role of autologous stem cell transplantation in multiple myeloma
Q336 [7m · February 2022] Myeloma response criteria
Q342 [7m · August 2022] Adverse events in CAR-T cell therapy
Q351 [7m · February 2023] BiTE (Bi-specific T-cell engager) – describe and discuss the drugs
Q354 [7m · February 2023] ICANS (Immune effector cell-associated Neurotoxicity Syndrome)

Melanoma / immunotherapy / CPI (19)

Essays

Q229 [15m · February 2017]
Discuss the checkpoint inhibitors and their clinical application.
Q266 [15m · August 2018]
Malignant Melanoma – Diagnosis and Recent Therapeutic Advances.
Q338 [15m · August 2022] · DEEP
Discuss the rationale of combining checkpoint inhibitor (CPI) and VEGF inhibitors in metastatic renal cell carcinoma. Discuss the various CPI with VEGF inhibitor combinations and the evidence. Discuss 2nd line treatment of metastatic renal cell carcinoma.
Q349 [15m · February 2023] · DEEP
Discuss the role of genes involved in mismatch repair (MMR) mechanisms in various cancers. Discuss testing modalities of MMR genes and their interpretation. Describe the mechanism of MMR as a biomarker for checkpoint inhibitors.
Q374 [15m · February 2025] · DEEP
Mucosal melanoma.

Short notes (selected listing)

Q025 [5m · April 2004] Immunotherapy for the treatment of malignant gliomas
Q033 [5m · April 2004] Gene therapy for malignant melanoma
Q172 [7m · August 2013] Active specific immunotherapy for cancer
Q188 [7m · August 2014] Immunotherapy in malignant melanoma
Q219 [7m · August 2016] Recent development in the management of malignant Melanoma
Q222 [7m · August 2016] Cytotoxic T–Lymphocyte Associated Antigen-4 (CTLA-4)
Q256 [7m · February 2018] Nivolumab
Q270 [7m · August 2018] Immunotherapy in lung cancers
Q296 [7m · February 2020] Checkpoint inhibitor toxicity and its management
Q324 [7m · August 2021] Intravesical immunotherapy and chemotherapy
Q360 [7m · February 2023] Adjuvant therapies in Melanoma
Q377 [7m · February 2025] Immune checkpoint inhibitors in Hodgkin's lymphoma management
Q390 [7m · January 2026] Novel markers predicting immunotherapy response
Q396 [7m · January 2026] Role of microbiome modulation in enhancing immunotherapy effects

RCC / prostate / bladder / GU (10)

Essays

Q338 [15m · August 2022] · DEEP
Discuss the rationale of combining checkpoint inhibitor (CPI) and VEGF inhibitors in metastatic renal cell carcinoma. Discuss the various CPI with VEGF inhibitor combinations and the evidence. Discuss 2nd line treatment of metastatic renal cell carcinoma.

Short notes (selected listing)

Q051 [5m · February 2005] Chemotherapy of prostate cancer
Q083 [5m · February 2007] Metastatic renal cell carcinoma
Q132 [6m · February 2009] Merits and demerits of treatment in asymptomatic early-stage prostate cancer
Q142 [6m · August 2009] Molecular targeted therapy in renal cell carcinoma
Q167 [7m · August 2012] Recent Advances in the management of Hormone Refractory Prostate Cancer
Q235 [7m · February 2017] Upfront chemotherapy in prostate cancer
Q267 [7m · August 2018] Role of Androgen Deprivation in Prostate Cancer
Q356 [7m · February 2023] Define NM-CRPC (Non-Metastatic Castrate-Resistant Prostate Cancer) and describe its treatment
Q367 [7m · January 2024] Hereditary papillary renal cell carcinoma

Ovarian / PARP / gynae (16)

Essays

Q158 [15m · August 2012]
Critically analyse the role and issues regarding Intraperitoneal Chemotherapy in Epithelial Ovarian Cancer.
Q301 [15m · November 2020]
Discuss the role of PARP inhibitors in cancer.
Q385 [15m · January 2026] · DEEP
Discuss the development and clinical application of next-generation targeted therapies, including KRAS inhibitors, PARP inhibitors, and antibody–drug conjugates.

Short notes (selected listing)

Q040 [5m · August 2004] Guidelines for the treatment of relapsed ovarian cancer
Q074 [5m · September 2006] Management of metastatic endometrial stromal sarcoma
Q082 [5m · February 2007] Chemoradiotherapy in the management of carcinoma of cervix
Q130 [6m · February 2009] Differential diagnosis of ovarian mass in a 15-year-old girl
Q151 [7m · August 2011] Olaparib
Q281 [7m · August 2019] Maintenance therapy in ovarian cancer
Q293 [7m · February 2020] Management of biochemical relapse in ovarian cancer
Q320 [7m · August 2021] Role of adjuvant chemotherapy in endometrial cancer
Q321 [7m · August 2021] Role of hyperthermic intraperitoneal chemotherapy (HIPEC) in ovarian cancer
Q328 [7m · February 2022] Newer cancer chemotherapy agents for ovarian cancer
Q357 [7m · February 2023] Use of PARP inhibitors in various cancers
Q372 [7m · January 2024] Uterine leiomyosarcoma
Q376 [7m · February 2025] HIPEC

ADC / targeted / KRAS / NGS (20)

Essays

Q047 [15m · February 2005]
Discuss the role and recent trends of targeted therapy.
Q110 [20m · August 2008]
Elaborate the role of molecular targeted therapy in the treatment of squamous cell cancer of the head and neck.
Q157 [15m · August 2012]
Discuss in detail the role of Targeted therapy and recent advances in the Systemic Management of Colorectal Cancers.
Q169 [15m · August 2013]
Discuss in detail the role of Targeted therapy in Oncology.
Q193 [15m · August 2015]
Unique biology of Triple negative breast cancer and targeted agents in the treatment of advanced triple negative breast cancer.
Q218 [15m · August 2016]
Describe the etiology and molecular profile in the development of gastric cancer and role of targeted therapy.
Q325 [15m · February 2022] · DEEP
Discuss the current status of DNA microarray profiling in management of malignant tumour.
Q373 [15m · February 2025] · DEEP
Antibody drug conjugates in medical oncology practice.
Q385 [15m · January 2026] · DEEP
Discuss the development and clinical application of next-generation targeted therapies, including KRAS inhibitors, PARP inhibitors, and antibody–drug conjugates.

Short notes (selected listing)

Q014 [10m · November 2001] Antibody targeted therapy in non-Hodgkin’s lymphoma

Q091 [5m · August 2007] Microarrays in breast cancer
Q135 [6m · August 2009] KRAS
Q142 [6m · August 2009] Molecular targeted therapy in renal cell carcinoma
Q184 [7m · August 2014] Targeted therapy in Hodgkin's Lymphoma
Q207 [7m · February 2016] Targeted therapy in colon cancer
Q227 [7m · August 2016] Targeted therapy of FLT3 positive acute myeloid leukemia
Q243 [7m · August 2017] Neoadjuvant HER2 targeted therapy in breast cancer
Q344 [7m · August 2022] Pharmacogenomics in Cancer Therapeutics
Q345 [7m · August 2022] Antibody Drug conjugates used in Cancer therapeutics
Q392 [7m · January 2026] Targeted therapies for hematologic malignancies—BTK inhibitors, FLT3 inhibitors

Supportive care / pain / FN / VTE (17)

Essays

Q015 [25m · March 2002]
Discuss outpatient management of febrile neutropenia following cancer chemotherapy.
Q071 [15m · September 2006]
Discuss the etiopathogenesis of deep vein thrombosis in cancer. Suggest an investigative work-up and outline a management approach.
Q089 [15m · August 2007]
Discuss the role of antifungal drugs in the management of febrile neutropenia in the remission induction therapy of acute leukemias.
Q097 [20m · February 2008]
Discuss the pathophysiology of pain and the advances in the management of acute pain in subjects with cancer.
Q098 [20m · February 2008]
Discuss the status of geriatric assessment in the elderly and briefly elaborate on the treatment of older subjects with colorectal cancer.
Q109 [20m · August 2008]
Discuss the pathophysiology of hemopoiesis and the current status of colony stimulating factors in the management of infectious complications in subjects with febrile neutropenia following myelosuppressive chemotherapy.
Q289 [15m · February 2020]
Discuss fertility preservation strategies in cancer.
Q290 [15m · February 2020]
Discuss thromboembolism in cancer, its prevention and treatment.
Q326 [15m · February 2022] · DEEP
Recent advances in supportive care in cancer chemotherapy.

Short notes (selected listing)

Q113 [6m · August 2008] Thrombopoietin
Q159 [7m · August 2012] Indications and contraindications of Total Parenteral Nutrition in Cancer Patients
Q160 [7m · August 2012] Algorithm for Cancer Pain Management
Q186 [7m · August 2014] Nutritional assessment and intervention in cancer patients
Q226 [7m · August 2016] Recent advances in managing bone pain
Q246 [7m · August 2017] Preservation of fertility during chemotherapy for breast cancer
Q249 [7m · August 2017] Comprehensive Geriatric assessment in cancer patients
Q310 [7m · November 2020] Non-pharmacological management of pain

Transplant / GVHD / haplo (13)

Essays

Q046 [15m · February 2005]
Discuss the role of autologous stem cell transplantation in present practice of oncology.
Q170 [15m · August 2013]
Indications, contraindications, methodology and side effects of Allogeneic bone marrow transplant.

Short notes (selected listing)

Q020 [10m · March 2002] Mixed chimerism in marrow transplants
Q028 [5m · April 2004] Stem cell transplantation in childhood ALL
Q126 [6m · February 2009] Allogeneic stem cell transplantation for immunodeficiency diseases
Q141 [6m · August 2009] GVHD
Q162 [7m · August 2012] Definition and Indications of Haploidentical Stem cell Transplantation
Q247 [7m · August 2017] Autologous Bone Marrow Transplant in Multiple Myeloma
Q263 [7m · February 2018] Recommendations for vaccination after Autologous and Allogeneic Hematopoietic cell transplant (HCT)
Q317 [7m · August 2021] Role of autologous stem cell transplantation in multiple myeloma
Q358 [7m · February 2023] Various modalities of T cell depletion in Haploidentical transplantation
Q364 [7m · January 2024] Engraftment and engraftment syndrome
Q379 [7m · February 2025] Reduced intensity conditioning regimen in stem cell transplantation

HIV / infection / prevention (7)

Essays

Q089 [15m · August 2007]
Discuss the role of antifungal drugs in the management of febrile neutropenia in the remission induction therapy of acute leukemias.
Q337 [15m · August 2022] · DEEP
Discuss the role of HIV in the pathogenesis of Cancer. Discuss the cancers associated with HIV infection. Discuss in detail the management of various lymphomas arising in a patient with HIV-AIDS.

Short notes (selected listing)

Q049 [5m · February 2005] Chemoprevention
Q063 [5m · February 2006] Chemoprevention of cancer
Q128 [6m · February 2009] Management of invasive aspergillosis
Q143 [6m · August 2009] Chemoprevention
Q383 [7m · February 2025] Vaccine preventable cancers

Other / cross-cutting topics (205)

Essays

Q001 [25m · April 2001]
Discuss the role of biological response modifiers in management of cancer.
Q002 [25m · April 2001]
Discuss the various aspects of high dose chemotherapy in cancer.
Q008 [25m · November 2001]
Discuss critically the role of chemotherapy in the treatment of anal canal cancer.
Q016 [25m · March 2002]
Discuss critically the role of concurrent chemoradiotherapy in head and neck cancer.
Q022 [15m · April 2004]
Describe briefly the hierarchy of haemopoiesis. How do stem cells play a part in tissue repair?
Q023 [15m · April 2004]
Discuss critically the role of concurrent chemoradiotherapy in the management of anal canal cancer.
Q059 [15m · February 2006]
Discuss the neoadjuvant treatment of cancer of rectum.
Q070 [15m · September 2006]
Critically evaluate the role of sentinel lymph node biopsy, along with the various techniques used, in the management of tumours at different sites.
Q072 [15m · September 2006]
Discuss neoplastic angiogenesis and antiangiogenesis therapy.
Q080 [15m · February 2007]
Discuss immuno-surveillance mechanisms and the different immunotherapeutic strategies.
Q088 [15m · August 2007]
Discuss the phases of clinical trials in cancer. Enumerate the pros and cons of using Indian patients in multinational clinical trials.
Q090 [15m · August 2007]
‘Cancer is a multistep process’ – Explain with the example of head and neck cancer. What could be possible interventions at each step?
Q121 [20m · February 2009]
Write a short essay on Epigenetics.
Q133 [20m · August 2009]
Discuss briefly the recent developments in pathology, molecular biology and management of glioblastoma multiforme.
Q146 [15m · August 2011]
Discuss the current status of individualized treatment for Cancer (Tailored Therapy) in Medical Oncology.
Q205 [15m · February 2016]
Discuss the pathology, pathogenesis, risk assessment and treatment of myelodysplastic syndrome.
Q253 [15m · February 2018]
Pathologic evaluation of carcinoma of unknown primary and management of favourable subsets.
Q302 [15m · November 2020]
Discuss the staging, prognostic factors and management of chronic lymphocytic leukemia.
Q313 [15m · August 2021]
Discuss the management of high-risk neuroblastoma.
Q386 [15m · January 2026] · DEEP
Explain the role of real-world evidence and digital oncology tools (AI decision support, digital biomarkers, remote monitoring) in modern cancer care.

Short notes (selected listing)

Q003 [10m · April 2001] Topoisomerase inhibitors
Q004 [10m · April 2001] Hyperthermia
Q005 [10m · April 2001] Late effects of cancer chemotherapy
Q006 [10m · April 2001] All-trans retinoic acid (ATRA)
Q007 [10m · April 2001] Gene therapy
Q010 [10m · November 2001] STI-571 (Tyrosine kinase inhibitor)
Q011 [10m · November 2001] Gene therapy in gliomas
